

Kallergi Biosketch

Dr. Kallergi received her B.S. degree in Physics from the National and Kapodistrian University of Athens, Greece. She did her graduate work in France and the United States in the areas of Energy Physics, Applied Physics/Material Science, and Electrical Engineering. She holds two M.S. degrees and a Ph.D. degree, the latter in Physics & Electrical Engineering from the University of South Florida (USF). She completed her postdoctoral studies in Diagnostic Radiology at the Moffitt Cancer Center & Research Institute and the Department of Radiology of USF's Morsani College of Medicine. She has also attained a graduate certificate in Management & Leadership from USF's Muma College of Business.

Dr. Kallergi was a faculty member of the Department of Radiology and the Moffitt Cancer Center & Research Institute from 1993 to 2006 when she joined the faculty of the Department of Biomedical Engineering of the Technological Educational Institute of Athens and the Division of Nuclear Medicine of the Biomedical Research Foundation of the Academy of Athens. Her current research interests include mathematical and computer modelling of physiological and biological processes, two- and three-dimensional medical imaging applications, quality control of medical systems and procedures, medical statistics and observer performance studies.
